Junior Lego League's Club

Junior Lego League is a structured and educational program that is centered on scientific and robotic problem solving with Legos. The children will advance their skills in scientific inquiry, brainstorming, and problem solving. In addition to creative building, they will have a specific problem to solve and the Lego coach is only a guide in their solutions. The Junior Lego League requires some local traveling for different events and some additional meetings other than the regular afterschool club meetings. Parent volunteers will be needed throughout the season.

Club Day: Friday
Club Sponsor: Ms. Bresnahan
Room 124
Time -3:00-3:30 pm

Health & Wellness Club

In our fast paced world and sufficient amounts of knowledge, it is hard to decipher what health and wellness means. We are fed information of what is considered to be healthy and what is considered to be the best form of exercise. It is important for not only adults to know the true information, but important for young children to develop healthy habits and understand how to achieve their optimal health. In the club, we will explore various forms of movement such as yoga, physical activities, meditation, etc., along with some health 101 topics on which foods are considered healthy and how to choose healthy food options.

Club Day: Wednesday
Club Sponsor: Ms.Lee
Room 125
