New Springs Schools Enrollment & Lottery Process

1. NSS accepts re-enrollment/siblings forms from current students, children of governing board members and current employees within a deadline, for current year the week of February 4th.
2. Re-enrollment forms received by this deadline will have preference and those students will be automatically enrolled for the next school year.
3. Enrollment Applications are accepted through school's website until a certain date each year, for current school year on or within a week of Feb 25th.
4. Current NSS students' siblings, students from households of NSS Faculty or board members have priority for enrolment.
5. If application number exceeds allowed seats for any grade level, a lottery to be held will be announced on school website www.newspringsschools.org, for current school year tentatively on or within a week of March 11th. Each applicant will have an equal chance to be selected during this public lottery.
6. If a lottery is held, selection will be announced on school website on the same day, with a deadline to enroll.
7. If an applicant does not respond within this timeframe, the seat will be offered to an applicant on the active waiting list created after the lottery.
8. Continuing enrollment applications received will be placed on each grades' waiting list then on.
